BedRock Announces: AggFlow version 4.1

BedRock Software, Inc. (BedRock) is pleased to announce the release of AggFlow version 4.1 with improved operating efficiency. Version 4.1 has improved user interfaces including expanded equipment list, improved calculation capabilities and faster calculation speeds.

AggFlow, developed in 1993, is used by aggregate producers, equipment manufacturers and dealers to reduce calculation time and increase productivity in aggregate and mining operations. "Version 4.1 provides a significant step forward for users who are employing AggFlow to optimize their production processes" says Bryan Lewis, President of BedRock Software, Inc.

Visit the AggFlow website for more detailed information at: www.aggflow.com

BedRock Software, Inc. has been providing the AggFlow program to the aggregate industry since 1993. BedRock is an independent , privately held company.
