## Press Release

---

### **BedRock Announces: AggFlow version 4.2 with “Sample Buckets”**

BedRock Software, Inc. (BedRock) is pleased to announce the release of AggFlow version 4.2 with “Sample Buckets”. Version 4.2 has significantly enhances the calculation capabilities of the AggFlow program by allowing users to enter actual field data for use in the calculations. In addition, version 4.2 includes an expanded equipment list and improved calculation efficiency.

AggFlow, is used by aggregate producers, equipment manufacturers and dealers to reduce calculation time and increase productivity in aggregate and mining operations. Visit the AggFlow website for more detailed information at: [www.aggflow.com](http://www.aggflow.com)

**BedRock Software, Inc.** has been providing the AggFlow program to the aggregate industry since 1993. BedRock is an independent, privately held company.
